

California Imagine Language & Literacy Summer Program

The California Department of Education (CDE) is partnering with Imagine Learning to provide supporting resources for California's Summer Reading Initiative. Imagine Learning's Language & Literacy is available for free to students in grades K-3 who opt into this summer reading program.

About Imagine Language & Literacy

Imagine Language & Literacy is a personalized learning solution that accelerates reading and language skill development for students in grades K-3. Designed to supplement core literacy instruction, it provides instruction and practice in all four domains of literacy—reading, writing, listening, and speaking.

Once placed into the program, students work independently to:

- complete activities in a game-like environment
- practice skills via connected texts in a wide range of genres
- receive adaptive instruction with extensive scaffolding and first-language support

Imagine Language & Literacy is uniquely qualified to address the diverse instructional needs of today's learners, whether they are on or above grade-level, English learners, striving readers, or exceptional students, all in a single program.

To learn more about this initiative and how to opt in, sign up for a webinar at the link below.
